## OGHENETEGA GREAT AMINODE

### OBJECTIVE

My sole objective is to get a position in-line with my skills, in order to incorporate my technical knowledge, educational knowledge, and work experience into realization.

### SKILLS & ABILITIES

- Microcontroller Programming (Arduino, Python).
- Front-end Web Development (JavaScript: React / Bootstrap/HTML/CSS).
- Back-end Web Development (Django).
- Front-end Mobile App Development (React Native).
- Web Design (Adobe XD).
- UI & UX Design (Adobe XD).
- Robotics Development (Gazebo, RViz).
- PLC Programming (Ladder Diagram).
- CNC Programming (G-Code).
- Game Development (Unity).
- MatLab.
- CAD Draftsman (SolidWorks).
- 3D Modelling, Simulations and Animations (Blender).
- Data Analysis (Excel).
- Graphic Designing and Video Editing (Adobe Photoshop/Adobe After Effect/ Adobe Premier Pro).
- Critical/Creative Thinking/ Problem Solving.
- Logical Reasoning/ Team Player.

I am a Mechatronics Engineer who is diverse in the field of technology, when I work on projects, I use my technological, creative and critical thinking skills to produce the best result and output.

### EXPERIENCE

#### GLOBAL MULTILINK TECHNOLOGY WARRI, DELTA STATE, NIGERIA

(2016)

- I worked as an intern and aided the building of various circuits and personally built some circuits such as power circuit, multi-purpose battery charger.

#### REWJIDO NIGERIA PLC WARRI, DELTA STATE, NIGERIA

(2017)

- I worked as a phone technician and repaired various phones and tablets.

#### SOFTCITY GROUP VICTORIA ISLAND, LAGOS, NIGERIA

(2019)

- I worked as an intern and aided the development of various softwares, I personally developed various mobile apps, and also developed apps involving 3D modelling, simulations and animations using unity engine and blender software.

#### **EDUCARE TECHNOLOGY LTD LEKKI PHASE 1, LAGOS, NIGERIA**

(2021)

- I worked as an intern and built the front-end of various website with (html/css/bootstrap/JS) and integrated a back-end written in django(a python web framework) and hosted this sites on Netlify.

#### **ZHOTON TECHNOLOGY LAGOS, NIGERIA**

(2021 - Present)

I am the Managing Director of Zhoton Technology, and I have led the company in developing

- Full-stack Website.
- CAD designs for Engineering firms.

#### **SEEBAR ENTERPRISE LAGOS, NIGERIA**

(2019- Present)

I am the Managing Director of Seebar Enterprise, and I have led the company in

- Training programs in the field of technology.
- I partook in the pan-African robotics competition 2021 and I developed an autonomous delivery vehicle with the use of gazebo (a 3d software for robotics), RViz (Robot visualization) for localization and mapping, VS Code (used for writing the required python code).

---

#### **EDUCATION**

##### **AFE BABALOLA UNIVERSITY, ADO-EKITI, EKITI STATE (ABUAD).**

##### **MECHATRONICS ENGINEERING (2017- 2022)**

As in fulfilment of my bachelor degree in Mechatronics Engineering, I built an autonomous interior wall painting robot for painting the interior walls of buildings.

---

#### **ACHIEVEMENT**

##### **SCHLUMBERGER EXCELLENCE IN EDUCATION DEVELOPMENT, UNITED STATES OF AMERICA (SEED 2016)**

- 1<sup>ST</sup> POSITION

##### **NIGERIAN TEEN CHOICE AWARD (2018)**

- 1<sup>ST</sup> POSITION

##### **PAN-AFRICAN ROBOTICS COMPETITION ( PARC 2021)**

- Finalist

---

#### **CERTIFICATION**

##### **DUKE UNIVERSITY, UNITED STATE OF AMERICA (2021)**

- Introduction to Machine Learning

##### **IBM (2021)**

- HTML & CSS

##### **JOBBERMAN (2021)**

- Soft-Skills Training

##### **ABUAD CHAPEL MULTIMEDIA CREW (2022)**

- Multimedia

## COMMUNICATION

- English Language
- Urhobo Language
- Isoko Language
- Chinese Language
